- 50 Officers attended
- Representing 18 Local Authorities
- The results to the closing survey, demonstrated an interest in expanding the use of the FG Directory beyond the C21 schools programme by Local Authority staff.
- CEWales will be progressing the trialling of the FG Directory with NHS Wales Shared Services and Transport for Wales for healthcare and infrastructure projects respectively.
- For the FG Directory to become applicable to this wider audience, it has been agreed that it will be reconfigured from RIBA stages to the four project milestones:
 -  Feasibility
 -  Design
 -  Construction
 -  Operation

Recommendations

- Recruit pilot projects via NHS Wales Shared Services and Transport for Wales
- Further promotion of the FG Directory amongst local authorities to ensure wider take up
